

Short Term Course (STC) on
Solar Energy Technologies - Principles and Applications
from 16 to 20 March 2026 at NITTR Chandigarh (OPlan No. - EE-8)

The aim of this STC is to upgrade the knowledge regarding the significant aspects of solar energy and its applications. This course aims to achieve the following objectives:

- To make the participants aware regarding the important aspects of Solar Energy in the perspective of Sustainable Development Goals
- To update the knowledge of participants with respect to the various technologies related to Solar Energy
- To apprise the participants about working principle of Solar thermal and Solar photovoltaic technologies
- To make aware regarding various schemes for Solar Energy promotion of Govt. of India
